

IMPORTANT NEWS.

Introducing a new pharmacy service available in your area.

CA174

Now you can take control of your NHS repeat prescriptions

Pharmacy2U is a free service where you can have your repeat prescriptions arranged, dispensed and delivered for you - giving you more time and freedom for other things.

Delivered free to your door

Doctors can now send prescriptions direct to us at Pharmacy2U electronically. So all you need to do is call us and tell us what you need or you can go online if you prefer. We'll get in touch with your GP to arrange your prescription. Our pharmacists will dispense it and you'll receive your medication in the post, meaning you have more free time for the things you enjoy.

Here's how it works

Once you have registered with us, repeat prescriptions are easy.

- 1. Order your medication** – you tell us what medication you need.
- 2. Your prescription received** – we order and receive the prescription from your GP*.
- 3. Checked by pharmacist** – we then check and dispense your prescription.
- 4. Free, flexible delivery** – we deliver your medication to you at home, work, through the letterbox or a safeplace - for free!

Helpful reminders to re-order

With our free reminder service, we'll make sure you receive your medication on time by sending you a text, phone call, email or app notification to tell you when it's time to re-order. You then simply confirm the medication you need and we take care of the rest.

You can also order at any time by phone, online or via the Pharmacy2U app.

*Service available in England only and if your surgery needs you to order directly, we'll tell you how to do this.

Register today

NHS repeat prescriptions have never been easier

Here are some local surgeries using the NHS Electronic Prescription Service.

Appleby Medical Practice
And Others

Your surgery has not given us any of your details for this letter and has not approved this communication.

“ I use the Pharmacy2U website to arrange my medication and have it delivered. It means I don't have to go to the GP or chemist. It's so easy.

Hilarie Bishop, Portsmouth ”

It's easy to register
